

## *What they say...*

I was referred to Melissa over 14 years ago, and quickly understood why she has SO many loyal and long time clients. She is not only an amazing colorist & stylist, she is also an upbeat, positive and caring person, who I now feel privileged to call my friend. I have referred several friends and family to Melissa, over the last 14 years; and everyone has has been thrilled with the referral. The new home of Blackbird Hair Salon is inviting, relaxing, open and spacious; while cozy and inviting. Melissa assures all protocols are taken by her clients and staff to assure everyone's health & safety, during these new and different times we are now living in. Melissa has a great team of stylists working with her, who are all friendly and each has their own niche talents. I always look forward to my appointments at Blackbird Hair Salon in Boca Raton, and am sure you will as well.....call to book your appointment now!

The most impressive thing about Blackbird isn't just their beautiful new digs; it's the experience, skill, and genuine warmth of their stylists! I've never left there with anything less than an excellent haircut/color and an afternoon of wonderful, convivial conversation. Coupled with ample free parking in back and "no wait" appointments. Blackbird is, hands down, my all-time favorite salon!

Blackbird Hair Studio and Melissa's team are THE hair salon of Boca Raton. Melissa has been my hair stylist for the last 15 years. She is reliable, timely, full of hair knowledge, and nails my hair color each and every time. The salon is modern and inviting, you will feel right at home. I personally drive 30 miles to see Melissa and it is 100% worth the drive. Don't hesitate to make an appointment!

After ten years in NYC, I moved south. I was given a lead to get the best color and cut in town. Melissa welcomed me and after a great chat I left her and her shop, Blackbird Hair Studio, with color, cut and style with a beautiful head of hair in addition to great vibe, best color I have had

and in two hours found my NYC hair dresser in Florida. Call her NOW, because she is booked weeks in advance. Make your appointment, don't hack your hair until your appointment -- no thanks necessary!

The vibe at the salon is just what I love when I'm looking to relax and catch up with my stylist (who of course doubles as a therapist!) who I have known for 25+ years. I don't even need to tell her what I want done with my hair. I trust that I will leave there looking and feeling fabulous. Melissa never lets me down, or the many friends I've sent to her!

I couldn't imagine having any other hairdresser. I have been with Melissa for 20 plus years. She is extremely talented. I've had long hair and short hair with her. I've never once had to ask for anything. I go in, she does my color and cut and I always get compliments on my hair. My teenage daughter now goes to her for color and cut too!

When I returned to South Florida 11 years ago, I asked a friend where she had her hair done. She said "You have to go to Melissa Keefer". She is very talented and listens to what her customers want. I took her advice and have been going ever since. I have had many hair stylists do my hair over the years but Melissa stands out as the BEST. I get compliments on my hair and my significant other, who is also going to her, says it looks great. I recommend her to men and women who want the BEST!

Best Highlights and Color! Best hairdresser I've ever had. I would not go to anyone else. She is special!

I have been going to Melissa for over 20 years for both cut and color. I am originally from Manhattan and of course was skeptical about finding a stylist down here.

Well all my worrying was for nothing. I have never had a better haircut. Everywhere I go people stop me and ask where I get my hair done. Melissa knows what I want before I do. I can't say enough about her talent.

Since I started going to her my wife and her entire family and extended family also go regularly. The new salon is amazing. Not only is it a warm and inviting atmosphere but completely covid safe. Which in these times is extremely comforting...

There is no place I would rather spend an hour than at Blackbird Salon. Great people, great music great conversations... I wish them all the best on their new endeavour with the Blackbird Hair Studio.
